

VReduMED Care Education Forum

Do you work in Care Education?

Are you ready to use Virtual Reality as a groundbreaking teaching tool?

Or are you already exploring the use of VR or AR in your nursing training?

Share your expertise at the VReduMED Care Education Forum!

What is VReduMED?

VReduMED is a pioneering project under the Interreg CENTRAL EUROPE program (CE0100136), that brings together 10 partner organizations across five countries (CZ, SK, AT, HU, DE) to enhance the training of care education professionals by exploring cutting-edge virtual reality teaching methods.

Aimed at solving the practical challenges of providing hands-on, quality nursing education, we rely on the theoretical knowledge and lived experiences of care education lecturers, teachers and trainers.

What is the VReduMED Care Education Forum?

Our VReduMED Care Education Forum is an opportunity for experts and practitioners to help us innovate practice-oriented VR teaching and learning.

"We combine the world of
virtual reality and healthcare"

VReduMED

The VReduMED Care Education Forum is a place for sharing ideas and experiences in round tables and workshops. Furthermore, it's where you can test prototypes and pilot applications and give feedback on those experiences. This Forum is crucial to further developing the optimal use of virtual reality in training future nurses.

Your participation is essential for our success!

We warmly invite you to share your expertise in this vital exchange of industry know-how!

By joining us in this effort, you'll receive

- access to our VReduMED expert network,
- invitations to VReduMED round tables, workshops and other networking events,
- training for your employees via our "Train the Trainer" program,
- practical tips and examples from the world of VR in care,
- the opportunity to test VReduMED Labs' pilot applications and prototypes.

We are eager to assist with any questions you might have and look forward to welcoming you into our community.

Shape the Future of Care Education with us!
